BURGER KING THE OUTDOORS

10%

Watch the ad. Develop a strong urge to dine at Burger King.

You will be redirected to the next page upon finishing the video.

 =  $4+3=G$

 =  $5 * 3=0$

 =  $3 * 3=I$

 =  $5+3 * 3=N$

 =  $4 * 4+3=S$

 =  $3 * 3=I$

 =  $4=D$

 =  $5=E$

Faint shapes can be seen on the side of the building. To extract values we follow three rules:

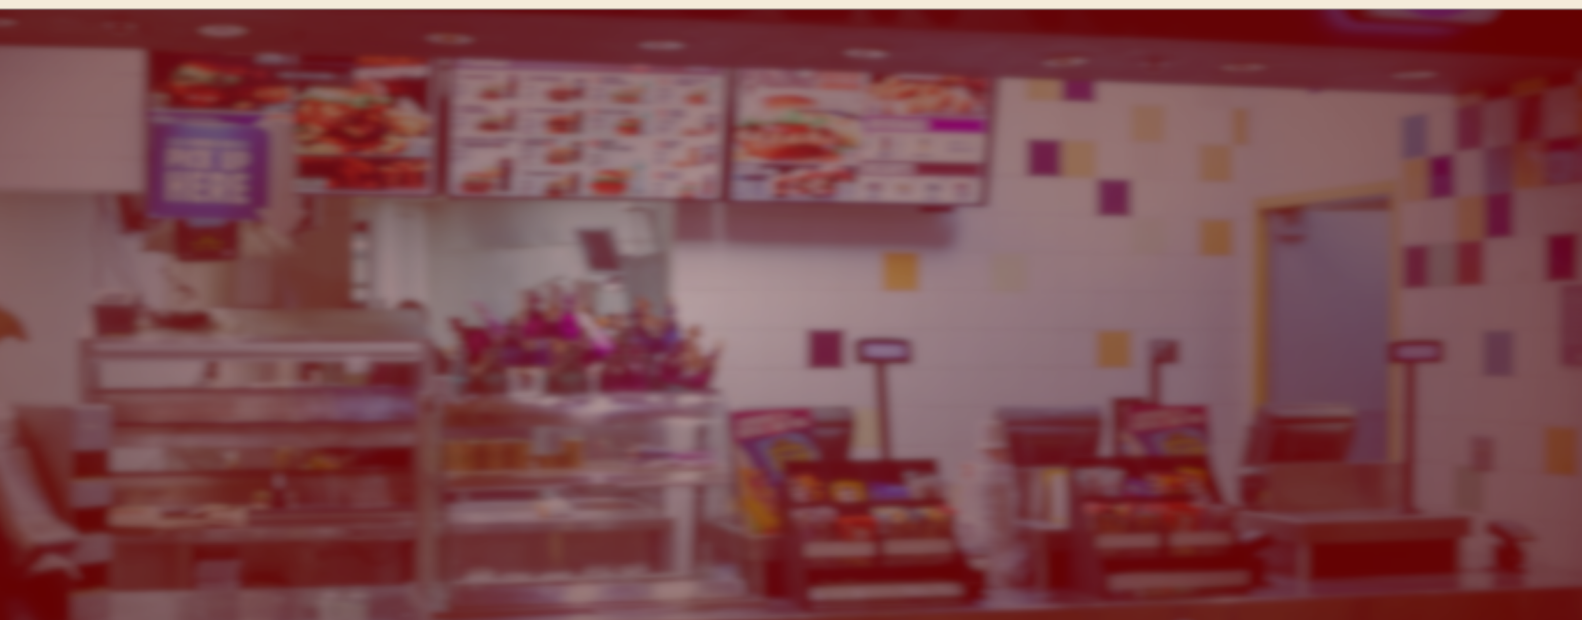

1. Shapes represent numbers with the amount of sides they have

2. Multiply the values of concentric shapes

3. Add the values of shapes next to each other in the same line

BURGER KING GOINSIDE.HTML

Upon opening the source code, we are told that the employees are absent. What a bummer! Let's use the self service instead.

selfservice.html is an egg. What are the self-service machines called? A kiosk of course!

BURGER KING KIOSK.HTML

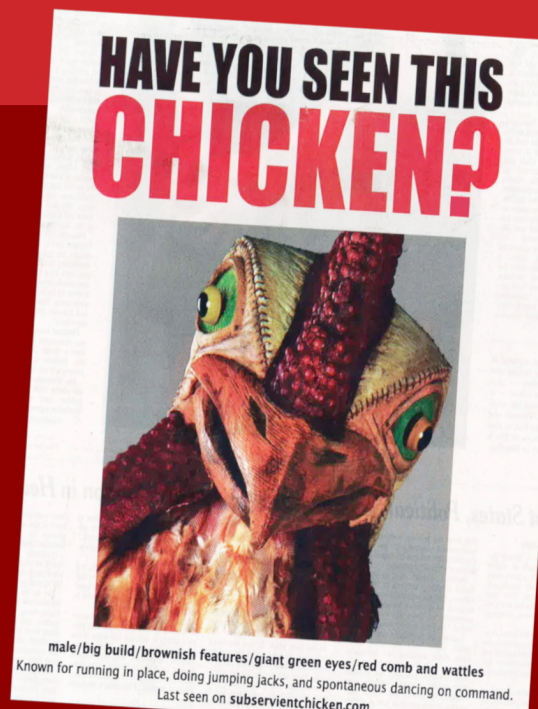

We've lost power!
Let's find a generator!

We have the hand gestures for **Rock, Paper, and Scissors. Beneath the hands is a high voltage symbol.**

This poster was released by Burger King as part of an ad campaign with **The Subservient Chicken! Let's go visit that chicken!**

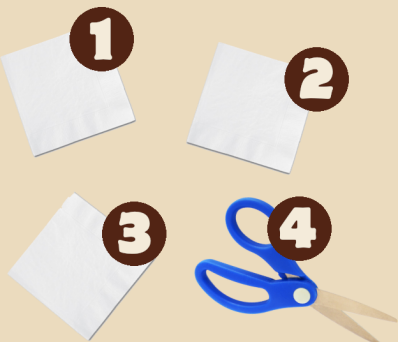

BURGER KING THE CHICKEN

To visit my obsolete website, you'll have to use the **ruffle** plugin to run flash, and the **WaybackMachine** to view an archive at **subservientchicken.com**

ruffle WayBackMachine

Asking the chicken to play rock paper scissors with you will get it to play

rock paper scissors

The source tells us to win against the ***** which matches the word **chicken** in length! Enter the winning moves into the url!

BURGER KING
SCISSORSSCISSORS
SCISSORSROCK.HTML

**It's
Jammed!**

The source code tells us that the generator is clogged by "**burger**" and that we have to somehow **get it out!**

Removing the letters in "**burger**" from the image name and anagramming the result gives us a new image!
generat0r.png

BURGER KING KIOSK.HTML

**JUST THE
WAY WE
LIKE IT**

**The Power's
Back on! In
fact almost
every page
has changed!**

**That means
the kiosk
must be
running!**

**Clicking on
it will allow
us to order
burgers!**

BURGER KING KIOSK.HTML

Let yourself **go wild** and keep ordering burgers despite the warnings!

Oh my, did you hear that **explosion**? The source tells us to check the generator once more at **scissorscissors scissorsrock.html**. It seems like most pages changed once more.

IT'S HOT & SPICY

BURGER KING
SCISSORSSCISSORS
SCISSORSROCK.HTML

**Click on
the
generator
and
initiate
the self-
destructi
on
sequence
!**

**You Fucking
Pyromaniac.**

**You broke into Burger King. Caused
the generator to explode, and burned
the place down.**

I Hope You're Proud Of Yourself.

Solution is given after redirection
